INTAKE FORM · STUMP FEASIBILITY STUDY

Stump Feasibility Study — Intake

Project Underwriting & Financial Analysis · Santa Cruz County

This intake defines the specific project to be underwritten. Every assumption in the resulting Feasibility Study traces back to the inputs you provide here. Completion time: 30–45 minutes. If you've previously commissioned a Stump Report or Development Brief for this property, reference those Report IDs in Section 1 and we'll carry forward relevant data. Accuracy matters — the Study's output is only as reliable as the scope definition provided.

SECTION 01

Property & Prior Reports

The parcel this Study analyzes, and any prior Stump reports that should be referenced.

STREET ADDRESS *

CITY *

ZIP CODE *

APN *

PRIOR STUMP REPORT ID

PRIOR STUMP DEVELOPMENT BRIEF ID

SECTION 02

Client & Role

Who is commissioning this Study and in what capacity. Role influences the Executive Summary framing; all other analysis is scope-based.

COMMISSIONING ROLE *

- ○ Developer — executing this project on a parcel being or soon to be acquired
- ○ Owner-Developer — executing this project on land currently owned
- ○ Capital Partner — evaluating an operator's proposed project
- ○ Lender — third-party underwriting for loan decision
- ○ Investor — evaluating for joint venture or syndication

COMMISSIONED BY — NAME *

COMPANY / ENTITY

TITLE / ROLE

SECTION 03

Project Scope

Specific and bounded. The Feasibility Study analyzes exactly this project — any change to scope invalidates the cost, timeline, and exit assumptions.

PROJECT TYPE *

- ○ New construction — Single-Family Residence
- ○ New construction — SFR + Detached ADU
- ○ New construction — Multi-Family (2–4 units)
- ○ Major renovation — Existing structure
- ○ Renovation + Addition
- ○ ADU addition (primary structure remains)
- ○ Subdivision + Build (lot split plus new construction)
- ○ Demolition + Rebuild
- ○ Mixed / Other — describe in Special Instructions

PRIMARY UNIT — SIZE (SQ FT) * BEDROOMS * BATHROOMS * STORIES

SECONDARY UNIT SIZE (SQ FT, ADU IF APPLICABLE) SECONDARY UNIT BR/BA PARKING SPACES

TOTAL GROSS BUILDING AREA (SQ FT) *

FINISH SPECIFICATION TIER *

- ○ Standard — code-minimum performance, typical material selections, mid-market finishes
- ○ Enhanced — stretch-code performance, upgraded finishes and fixtures, premium appliances
- ○ Premium — high-performance envelope, designer-level finishes, luxury fixtures and appliances

DESIGN INTENT & KEY DECISIONS

SCOPE EXCLUSIONS

SECTION 04

Site Conditions

What the cost estimate should assume about the site. If any of these are wrong, the cost estimate changes.

LOT SIZE (SQ FT) *

TOPOGRAPHY

Topography examples: 'Mostly flat', 'Gentle slope', 'Moderate hillside (10–20%)', 'Steep hillside (>20%)'

SOILS / GEOTECHNICAL

- ○ Geotech investigation complete — typical soils
- ○ Geotech investigation complete — expansive / problem soils
- ○ Geotech investigation not performed — assume typical
- ○ Geotech investigation planned but not yet complete

UTILITIES AT SITE (CHECK ALL PRESENT)

- ☐ Water — municipal
- ☐ Water — private well
- ☐ Sewer — municipal
- ☐ Sewer — septic (existing)
- ☐ Sewer — septic (to be installed)
- ☐ Natural gas
- ☐ Electric service (existing)
- ☐ Electric service (requires upgrade)
- ☐ High-speed internet / fiber
- ☐ None — utilities must be brought in

DEMOLITION REQUIRED

- ○ No demolition required
- ○ Partial demolition (interior / selective)
- ○ Full structure demolition

OTHER SITE-BASED COST DRIVERS

SECTION 05

Budget & Schedule Targets

What you have in mind for this project. The Feasibility Study will produce its own estimates; your targets help us contextualize where those land relative to your expectations.

TARGET CONSTRUCTION BUDGET ($)

MAXIMUM ACCEPTABLE BUDGET ($)

TARGET START DATE

TARGET COMPLETION DATE

SCHEDULING CONSTRAINTS

SECTION 06

Property Basis & Entry

How the property enters the project. For acquisitions: purchase price. For owned land: contributed value.

PROPERTY ENTRY *

- Acquiring — under contract
- Acquiring — evaluating before offer
- Owned — held in current entity
- Owned — will be transferred to new entity for this project

ACQUISITION PRICE OR CONTRIBUTED LAND VALUE ($) *

CLOSING / TRANSFER COSTS ($)

EXISTING ENTITLEMENTS OR APPROVALS ON PARCEL

SECTION 07

Financing

The capital stack you're planning. The Study will pressure-test this structure and identify whether the project penciling under these terms.

PRIMARY FINANCING APPROACH *

- All-cash
- Construction loan (lender identified)
- Construction loan (lender TBD)
- HELOC against existing property
- Cash-out refinance of existing property
- Equity partner / joint venture
- Syndication / multiple investors
- Other / hybrid

TARGET LOAN AMOUNT ($)

TARGET LOAN-TO-COST (%)

QUOTED RATE (% IF KNOWN)

LOAN TERM (MONTHS)

LENDER (IF IDENTIFIED)

EQUITY CONTRIBUTION SOURCE & STRUCTURE

SECTION 08

Intended Exit

How the project is intended to monetize. The Study models the primary exit in detail and runs the alternative as a fallback scenario.

PRIMARY EXIT STRATEGY *

- ○ Sell at completion
- ○ Refinance and hold as rental
- ○ Owner-occupy (no exit)
- ○ 1031 exchange into replacement property
- ○ Undecided — model both sale and hold

TARGET EXIT VALUE ($, IF SALE)

TARGET RENT (MONTHLY, IF HOLD)

MINIMUM ACCEPTABLE RETURN ON EQUITY (%)

MINIMUM ACCEPTABLE DSCR (IF HOLD)

EXIT TIMING & MARKET ASSUMPTIONS

SECTION 09

Team & Capability

Execution capability for this project. The Study assesses project viability; operator risk is out of scope but team status affects timeline assumptions.

GENERAL CONTRACTOR STATUS

- ○ Will self-perform / owner-builder
- ○ GC identified and under contract / LOI
- ○ GC identified, bid pending
- ○ Multiple GCs bidding
- ○ GC not yet identified

ARCHITECT STATUS

- ○ Design complete, CDs issued
- ○ Design in progress
- ○ Architect engaged, design not started
- ○ Architect identified, not yet engaged
- ○ Architect not yet identified
- ○ Not applicable (no design required)

KEY TEAM MEMBERS (IF APPLICABLE)

SECTION 10

Report Options

DELIVERY TIMELINE

- ○ Standard — 10 business days (included)
- ○ Expedited — 7 business days (+$1,000)

SPECIAL INSTRUCTIONS

SECTION 11

Authorization

By signing below, you authorize Stump Development LLC to prepare this Stump Feasibility Study based on the inputs above. Terms are governed by the engagement letter that accompanies this intake. You acknowledge that the resulting Study is an underwriting analysis under stated assumptions and does not constitute a recommendation to proceed with, pause, modify, or abandon the project.

SIGNATURE (TYPED NAME ACTS AS SIGNATURE) *

DATE *

TITLE / ROLE

After completion: Save this PDF with your inputs and email to info@stumpdevelopment.com. You will receive an engagement letter within one business day; work begins upon countersignature and payment. The resulting Study will be delivered with a companion pro forma spreadsheet (.xlsx).
